1. The following is an examiner's statement of reasons for allowance:

Claim 1 is allowed because the prior art whether individually or in combination does not teach the combination of a control part illuminating a lamp disposed inside a pushbutton attached to an external side of an outside door handle of a vehicle when the first detecting part detects that the engine has stopped running and the door has opened and other features as claimed. Claim 2 further limits claim 1 and as such is also allowed.
